

Slip-On Nailer Frame

The Baron slip-on frame is the perfect choice when you need a fire-rated high end architectural looking frame at a competitive price.

The slip-on frame is designed for most decorative trims to be applied for the optimum desired look for any building. Fleming slip-on frames can be attached to several construction materials including wood stud, metal stud, drywall and more. Slip-on frames are able to accept a variety of wall thicknesses and are even offered in an expandable frame version for maximum versatility.
